\$48.73M

Standards

Max Penalty

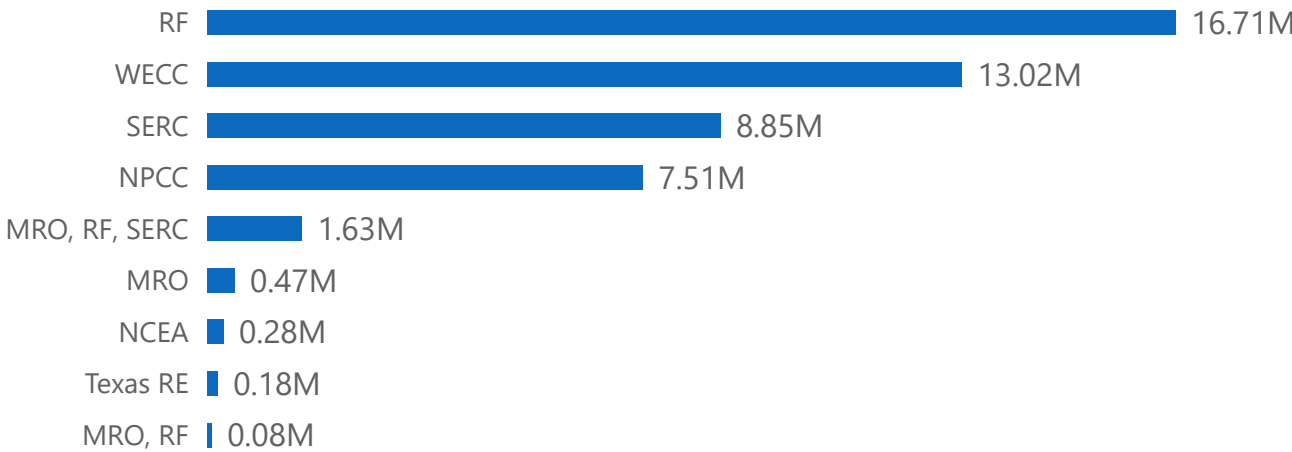

56

\$2.20M

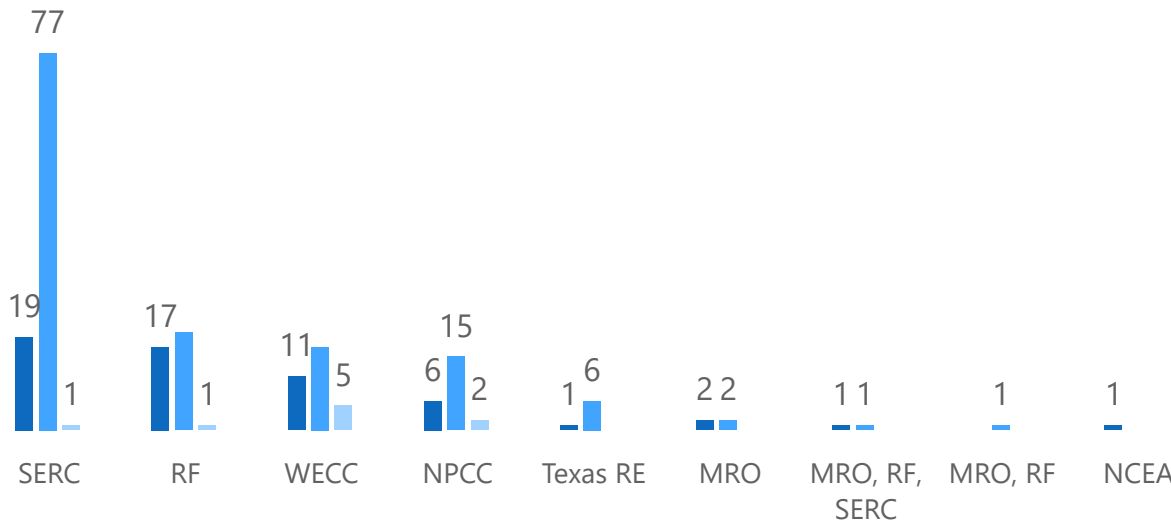

- **Total enforcement since 2021:** There are **206 violations** associated with **\$48.73M** in total penalties across **56 reliability standards**. 1 2 3
- **Penalty concentration:** The **maximum single filing penalty is \$2.2M**, with multiple violations at this level, indicating several large enforcement actions rather than a single outlier. 4 5
- **Regional impact:** **RF, WECC, SERC, and NPCC account for the vast majority of penalties**, with **RF at \$16.7M, WECC at \$13.0M, SERC at \$8.85M, and NPCC at \$7.51M** in total penalties. 6
- **Smaller regions:** Other entities have materially lower penalty exposure, including **MRO at \$0.47M, Texas RE at \$0.18M, and NCEA at \$0.28M**, plus several joint-enforcement matters (e.g., **MRO, RF, SERC at \$1.63M**). 6
- **Risk profile:** SERC shows **the highest violation volume**, with **97 violations**, predominantly **medium risk (77)**, while WECC and RF also have significant medium- and high-risk violations (e.g., WECC with 5 high, 17 medium, 11 low). 7
